In Progress

TULARE TARGET OFFSITE IMPROVEMENTS

TULARE, CA

TPG Consulting, Inc. prepared a Traffic Impact Study to assess the traffic impacts due to the development of the Proposed Target Shopping Center Located on the southwest corner of Mooney Boulevard (SR63) and Prosperity Avenue in the City of Tulare. TPG evaluated Existing, 2007, & 2030 traffic conditions at four different intersections. The Tulare County Association of Governments Traffic Model was used to develop project growth increments up to the year 2030.

TPG Consulting, Inc. also provided signal design, signing and striping plans. These plans included an installation of a new traffic signal at the intersection of Prosperity Avenue and Solaria Drive and a traffic signal modification for the existing signal on Mooney Boulevard and Prosperity Avenue. Signing, striping, and pavement marking plans were prepared along Prosperity Avenue from Mooney Boulevard to Solaria Drive and along Mooney Boulevard between Cross Avenue and Prosperity Avenue. TPG coordinated with the City of Tulare, Caltrans, 2 developers and several other engineering companies to ensure the project met all city and state requirements and was completed in a timely manner.
