PLANNING STAFF ASSISTANCE

CITY OF BAKERSFIELD

TPG Consulting, Inc. was hired by the City of Bakersfield to assist their Development Services Staff due to a combination of the large volume of development within the City and staffing vacancies.

Projects included assisting the Planning Manager in processing land use applications and preparation of required California Environmental Quality Act (CEQA) documentation. TPG prepared staff reports and CEQA analyses for a wide variety of subdivision projects City-wide including urban infill, suburban expansion on agricultural land and foothill developments.

Providing this assistance required the ability to quickly become familiar with the applicable City codes, requirements, policies, processes and procedures, and establish relations with other staff in order to effectively and efficiently process work flow in a manner consistent with more veteran City staff.
