NORTHFORK CASINO TRAFFIC IMPACT STUDY MADERA COUNTY

TPG Consulting, Inc. prepared a Traffic Impact Study (TIS) to assess the traffic impacts due to the development of the North Fork Casino in Madera County. Four alternatives were evaluated: Alternative – A Preferred Project located on the Preferred Site; Alternative B - Reduced Intensity Alternative located on the Preferred Site; Alternative C - Alternative Land Use located on the Preferred Site; and Alternative D - Off-Site Alternative located on the North Fork Rancheria Site.

In all, five county segments, three freeway segments and 24 intersections were analyzed in existing plus six future scenarios.

The TIS will be used in the preparation of a Project Environmental Impact Statement for the casino project.
