asoto@tpgconsulting.net

Mr. Soto recently joined TPG Consulting, bringing nearly 30 years of experience in engineering as a design draftsman and CAD designer.

In his previous work, Mr. Soto prepared grading/drainage plans, improvement plans and survey maps for subdivisions, commercial and multi-family developments, and public works projects. In addition, he prepared various maps, including topographic, record of survey, parcel, ALTA and subdivision maps.

Mr. Soto is currently working on site development plans for Kawneer Company, as well as preliminary plan line drawings for the widening of State Route 120, and the installation of a traffic signal west of the City of Escalon.
