Mr. Salazar recently began working with TPG as a Technician. His responsibilities include assisting with traffic impact studies, coordinating traffic counts and collecting field data.

Mr. Salazar has performed traffic counts for several Traffic Impact Studies in Fresno, Hanford and rural Kings County, and is currently providing hose counts for the Madera County Transportation Commission's annual countbook.

He recently coordinated traffic counts for a proposed landfill expansion project in the Mojave area, which entailed coordinating counts in four desert communities. In addition, he recently completed traffic counts for a rural dairy expansion project.

Mr. Salazar has a background in construction, with experience in striping and signing.
